LARGEST IN THE CITY.

Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising facilities free any more than a merchant can give his customer free gifts of goods or shoes. A newspaper is a valuable business concern. Its columns are its stock in trade, and advertisements should be paid for, as matter is what part of the paper they appear.

THE Verdict

It is the handsomest line of clothing ever found in Maysville. If this is not the exact truth, then hundreds of customers who have looked through our stock and bought their spring outfit deem themselves for the reason that the verdict.

who have favored us with their patronage this spring. Our trade ever since the first of March has justified us to add from day to day the newest production in everything that pertains to our various departments. Look in our windows; they indicate the proper style in

STATE MEDICAL SOCIETY.

Annual Meeting in this City to be Held May 11, 12 and 13, 1898.

The Kentucky State Medical Society, which meets in our city on the 11th of May, promises to be one of the most successful meetings in the history of that body.

In addition to the representative physicians who will be present from almost every county in the state, there will be prominent men of the profession from Philadelphia, New York, St. Louis and Cincinnati; all of whom will read papers on their special subjects and add to the scientific interest of the meeting.

The Committee of Arrangements have ready a large number of requests for space in the department of exhibits, and this will prove to be one of the most interesting features of the meeting.

The physicians of Mason county hope and trust that Maysville on this occasion show her accustomed hospitality, and that their guests will have no cause to regret having been among us.

STOLE A HORSE.

Sold For \$12 50—Now It Takes \$200 to Get Out of Jail.

The way of the transgressor is hard. And the way of the horse thief is through the Courthouse to the Penitentiary.

A few days ago Edward DeWitt, a recent looking young man of about 21 and of good family, looked upon a horse when it was ready to ride near Augusta.

And he proceeded to ride the aforesaid animal to Maysville, where he sold it to Thomas P. Hopper and a man named Moorford for the princely price of \$150.

Soon after the owner, Mr. William H. Case, "got onto" the transaction, and it was not until Constable Dawson had the young man behind the bars. Yesterday he was tried before Judge Newell and held in \$200 for appearance before the next Grand Jury.

We All Know

There is a popular belief that eyes cannot be properly fitted outside of an oculist's office, but we are constantly proving the incorrectness of that belief. If you have a dull pain about the eyeball, or if, when reading, the letters seem to run together, call and be relieved. We charge nothing for examination, and guarantee satisfaction in every case.

BALLENGER, Jeweler and Optician.

Just received a full line of Trimmed Millinery by Mrs. L. V. Davis.

A Catholic directory of this country just issued shows there are 9,352,625 Catholics in the United States. The largest diocese in New York with 650,000; Boston has 300,000; St. Louis 219,289; There are 13 Archbishops, 77 Bishops, 10,911 Priests and 4,570 Churches.

"A word to the wise is sufficient," and a word from the wise should be sufficient; but you say who is the wise? Those who know. The oft repeated expression of trustworthy persons may be taken for wisdom. Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people and is the best. For sale by J. James Wood, Drugist.

Theodore, three-year-old son of Mr. and Mrs. James E. Cullen of 435 West Second, was badly burned yesterday morning. The little fellow ran against a kettle of boiling starch, upsetting it. The hot stuff fell about his neck, shoulders and back, producing exceedingly painful but fortunately not dangerous burns.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure it, have ruined many a man. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure in the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They often cost hundreds of dollars for any case it fails to cure. Send for testimonials and full address.

The contrast between the financial condition of the country today and that when it fairly entered upon the War in 1863, is strongly marked. Then the money in circulation was less than \$350,000,000, or one-fifth of what it is today, and the amount per capita \$10.94 against \$23.69 per capita today, as shown by the latest statement of the Treasury Department. The money in circulation is more than double today what it was in April, 1879, while the fact that the latest report of the Comptroller of the Currency shows larger sums on deposit in the National Banks than ever before in the history of the country indicates that the people are in condition to respond to calls for loans to the Government should occasion require such call. Official reports of the Government also show the deposits in savings banks to be in amount greater than any other period in the history of the country.

HENRY CLEWS, the eminent financial authority, in speaking of the possible outbreak says the point raised that Spain is bankrupt and is in consequence a weak foe is not well taken. In the event of Spain going to war with this country it will certainly be impossible for her to raise money by the sale of her bonds, as they have already gone down to 42, and in the event of hostilities they will go down to probably 25 or less. She will therefore naturally abandon ambition to keep up her National credit, and hence interest on her outstanding obligations will be sure to be defaulted on. This amounts to about \$100,000,000 a year which she will have for war purposes. Contributions and forced revenue from the people will be one of the processes resorted to to carry on the war. Spain will be in a position similar to that of a bankrupt railroad, which makes a bad foe for a solvent competitor. A railroad in the hands of a receiver pays out nothing except to keep the road in repair and can make forced loans besides through receiver's certificates authorized by Court, which become a first claim against the road, to provide for pay-rolls and expenses to keep the road in fighting condition—ostensibly to be in a safe condition to prevent a sacrifice of life. A weak railroad can, therefore, outrate so low as to inflict serious injury to a strong competitor if it continues the fight long enough. While Spanish debt at present price is yielding 94 per cent. interest, United States debt at 121 yield only 21 per cent. interest, and notwithstanding the wide difference in the market price of the two securities, United States bonds are infinitely the cheapest and most desirable for an investment, because the principal and interest are absolutely secure under any circumstances, whereas, in the event of war, Spanish bonds will certainly be made absolutely insecure, if not worthless.

THE BUYERS' GUIDE.

Remember the Maine!

Place to get bargains in this section of the country is at John I. Winter's the Price Fighter, Maysville, Ky. Our good ship was blown up by a Spanish bomb, which has aroused the patriotic spirit of all Americans residing in the sunny land of the brave, shaded by the waving folds of Old Glory. Another explosion of interest was at the high prices heretofore prevailing in this section. Remember the date—January the 3d, in the year of our Lord 1898.—the Price Fighter opened in Maysville. Only three months since and "High Prices" have gone forever! Our good and magical sword—"Buy 'em right, add 10 per cent, sell 'em quick"—won the fight, and gratitude today fills the hearts of all the people. They all have a warm corner in their hearts for the Price Fighter, for he has already saved them thousands of dollars. Notice the happy, contented throng of bargain hunters filing in and out of our place all day long; stop and converse with one of them and they will tell you that John I. Winter is the people's friend. We court an investigation of our open method of business. We have no leaders, no baits, no catches of any kind. We make 10 per cent, on everything that leaves our house. We guarantee everything, both in quality and price.

The Spanish torpedo flotilla is being painted black, the war color. But when Uncle Sam's tars get done with it its war color will be a beautiful bright red.

What shall be said of the "dignity of the Senate" when the gentlemanly(?) members call each other liars and invite each other to step outside to engage in a brawl?

UNCLE SAM'S NAVY.

The Public Ledger's Timely Souvenir of the Nation's Battle-Ships, With a Description of Each Vessel.

As is fully stated elsewhere, THE LEDGER has arranged to furnish its patron with a magnificent pictorial history of every vessel belonging to the U. S. Navy. You can get this timely souvenir in one way only—

Cut out this Coupon, and present it at THE LEDGER office, together with 10 cents, and you will receive No. 2 of the series. No orders filled by mail unless accompanied by 25 stamp extra.

Note—If you are not satisfied after seeing the work you don't have to take it. It will be issued weekly, and completed in 6 parts.

THE HON. SAMUEL J. PUGH has THE LEDGER's thanks for a copy of Hon. NELSON DINGLEY's speech on the currency question.

THERE are today men in the Senate of the United States who would dishonor a Ward convention in the "bum" district of New York City.

The great danger just now lies not in not printing all the war news, but in printing too much of it—that is, in giving the reader a mass of "fake" stuff. THE LEDGER will endeavor to avoid this; but it hardly expects to succeed entirely.

A little boy asked for a bottle of "get up in the morning as fast as you can." The druggist recognized a household name for "DeWitt's Little Early Risers," and gave him a bottle of these famous little pills for constipation, rich headache, liver and stomach troubles. If W. Ray, adjoining Postoffice.
